## The Revolutionary Powder made of natural full Brown Rice\*!

\*Brown rice with rice husk

**Let's start intaking a tiny amount of this powder  
into your body everyday!**

Rice husk, the outer layer on brown rice, has high nutritional values and even stronger energy. However, it is too hard to eat and digest. That's why LE GENMAI designed and produced "BAP Brown Rice Powder Premium". To make our body digest nutrient-rich rice husk easier, we cook natural full brown rice at ultra-high temperatures and high pressure in a customized pot. Then, the product is dried well and processed into powdered form. Meanwhile the manufacturing process, the natural full brown rice produces melanoidin, a beneficial antioxidant, which makes "BAP Brown Rice Powder Premium" more valuable.

The dietary fiber of brown rice, which is a crystal of energy of the sun, has the power to strengthen the blood and the immune system. Natural full brown rice contains 6 to 7 times the amount of dietary fiber as brown rice. About 90% of rice husk is high in nutrients and silicon that has received a lot of attention in recent years. Please experience this revolutionary "BAP Brown Rice Powder Premium" whose silicon will conditions the organs of our body. Also you can absorb the energy of the sun from this product.

## Are you eating right?

### The Government of Singapore care about your health

On eating right, Prime Minister Lee Hsien Loong suggested making small changes such as replacing white rice with brown or mixed grain rice when we cook at home.

(Based on the quote from Sep. 2017 - "2017 National Day Rally")

### THE GREAT POWER OF BROWN RICE!

Brown Rice is an ideal meal replacement as its skins and germ (sugar) contains a huge number of vitamins, minerals, and fibers, as well as the perfect balance of over 40 essential nutrients for human body. It is said to have the following effects:

**Refilling energy / Activating human brain / Improving concentration / Stabilizing emotions / Detoxing and removing harmful substances / Improving constipation / Resetting guts / Preventing obesity / Anti-aging etc.**

### Brown rice vs White Rice: What's the difference?

During the 2017 National Day Rally, Prime Minister Lee Hsien Loong spoke at length about the war on diabetes and encouraged Singaporeans to eat right, exercise more, and go for health check-ups. On eating right, PM Lee suggested making small changes such as replacing white rice with brown or mixed grain rice when we cook at home.
