## The Revolutionary Powder made of natural full Brown Rice\*!

\*Brown rice with rice husk

Rice husk, the outer covering of a rice grain, has high nutritional values and even stronger energy. However, it is too hard to eat and digest. That's why Shokken designed and produced "BAP Brown Rice Powder Premium". To make our body digest nutrient-rich rice husk easier, we cook natural full brown rice at ultra-high temperatures and high pressure in a customized pot. Then, the product is dried well and processed into powdered form\*. Meanwhile the manufacturing process, the natural full brown rice produces melanoidin, a beneficial antioxidant, which makes "BAP Brown Rice Powder Premium" more valuable.

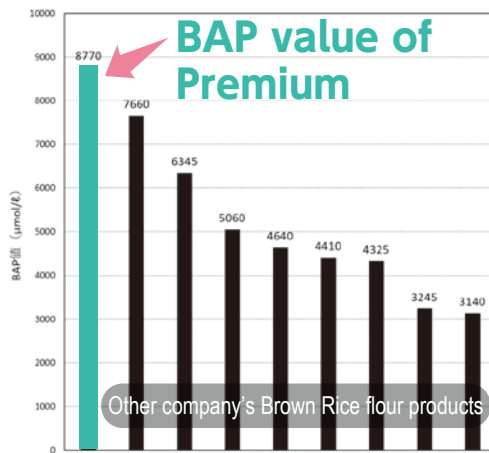

\*Manufacturing at our own GMP(Good Manufacturing Practice) certified factory

## BAP\* No.1

\*Biological Antioxidant Potential

"BAP Brown Rice Powder Premium" is certified as No.1 antioxidant value among many Brown Rice Flour by Kakuzuke Japan (Research Organization of Grading Japan).

The BAP value of BAP Brown Rice Powder Premium is "8770μ mol/l" and this is the highest value.

## THE GREAT POWER OF BROWN RICE!

Brown Rice is an ideal meal because its rice bran and germ contain a huge number of vitamins, minerals, and fibers, as well as the perfect balance of over 40 essential nutrients for human body.

Benefits of Brown Rice: Refilling energy / Activating human brain / Improving concentration / Stabilizing emotions / Detoxing and removing harmful substances / Relieving constipation / Resetting guts / Preventing obesity / Slowing Aging, etc.

## Function of Silicon

The rice husk contains rich vegetal silicon. Silicon is abundant in bones, joints, blood vessels, skin, hair, teeth, nails, etc., and is one of the minerals essential for sustaining human life. Silicon has many rules in the body like produce collagen and calcium, recover and excrete harmful substances, and have a strong antioxidant effect and activate immunity.

"BAP Brown Rice Powder Premium" contains about 300 times silicon that of brown rice! (Refer to the figure on the right.)

Since it is vegetal silicon, it is highly absorbed into the body and will conditions the organs of our body.

Let's start intaking a tiny amount of BAP Brown Rice Powder Premium everyday!

1700 mg

## Content of vegetal silicon in Premium

mg/100g(estimated value)
